MINOR'S INFORMED CONSENT

In the State of California, a minor who is 12 years of age or older, and in the opinion of the attending professional is mature enough to intelligently participate in services, may consent to mental health treatment or counseling without parental consent.

I, _____, being a minor over the age of 12 and seeking psychotherapy for myself, give informed consent for my own psychotherapy with Hanna Kuyper MA AMFT. I understand that I am financially responsible for my treatment. I further understand that I hold Privilege for my personal psychotherapy records.
